Questionnaire for Public Health Office in Province

RQ1 How can existing systems in Indonesia that include PMRV be relevant for PMRV in the context of REDD+?

SQa What organisations and people are involved in existing PMRV in Indonesia?

I Type of data collected

1. Do you receive data from these following Posyandu programs? (tick where applicable)

- Child and Maternal Health**
 - Prenatal mother*
 - Postpartum and breastfeeding mother*
 - Babies and under fives*
- Family planning**
- Immunization**
- Nutrition**
- Diarrhea prevention and countermeasures**

2. What data do you receive from these following Posyandu programs? (tick and fill where applicable)

Child and Maternal Health

Prenatal mother

-
-
-

Postpartum and breastfeeding mother

-
-
-

Date:	: ____ / ____ / ____	Interviewer	:
Location	: _____	Interviewee/Position	:
Age	: ____ / ____	Education Level	:
Sex	: _____	Checked by	:

Babies and under fives

-
-
-

Family planning

-
-
-

Immunizations

-
-
-

Nutrition

-
-
-

Dhiarrea prevention and countermeasures

-
-
-

3. What, according to your opinion is the aim of this data collection?

Date:	: ____ / ____ / ____	Interviewer	:
Location	: _____	Interviewee/Position	:
Age	: ____ / ____	Education Level	:
Sex	: _____	Checked by	:

II Organizations involved in PMRV

4. Do you know any other organization/parties (including NGO, private midwife/nurse/doctor/hospital) that conduct **participative** child and maternal health service in your province?

Yes No

5. If so, who are they?

6. If so, is it obligatory for them to report their activities to you?

Yes No

7. If so, what kind of data do they report to you?

III Number of personnel at each level

IV Motivation of participation

V Availability of budget for each level

8. Is there a budget in your office allocated for Posyandu activities?

Yes No

9. If so, from whom do you receive the budget and what is done from this budget?

VI Training of people involved in PMRV

10. Have you ever received training regarding Posyandu activities?

Yes No

Date:	: ____ / ____ / ____	Interviewer	:
Location	: _____	Interviewee/Position	:
Age	: ____ / ____	Education Level	:
Sex	: _____	Checked by	:

11. If so, who organized the training?

12. What were the topics discussed during the training?

SQb What are the standards of data circulation within these systems?

I Standard of Procedure for PMRV.

13. Do you know any standard of procedure (written regulation, training material, manual, guideline) on the management of Posyandu data ?

Yes No

14. If so, what does the procedure regulate?

II Data reporting

15. How often do you receive report on Posyandu data from Dinas Kesehatan Kabupaten?

Monthly Quarterly Semester
 Yearly Others (mention)

16. How often do you make report on Posyandu data to Kemenkes?

Monthly Quarterly Semester
 Yearly Others (mention)

17. How do you report to Kemenkes?

Date:	: ____ / ____ / ____	Interviewer	:
Location	: _____	Interviewee/Position	:
Age	: ____ / ____	Education Level	:
Sex	: _____	Checked by	:

18. Do you report all of your Posyandu data into the same or different division in Kemenkes?

Same, mention:

Different, mention:

III Existence of feedback mechanism on each level

19. Do you give feedback to the lower level organizations (Dinas Kesehatan Kabupaten, Puskesmas and Posyandu) on Posyandu activities?

Yes No

20. If so, how do you deliver your feedback to them?

21. Do you receive feedback from Kemenkes on Posyandu activities?

Yes No

22. If so, how do they deliver their feedback to you?

SQc Are these systems sustainable?

I Period of system existence

II Success criteria of PMRV system

23. What are Posyandu main targets?

Date:	: ____ / ____ / ____	Interviewer	:
Location	: _____	Interviewee/Position	:
Age	: ____ / ____	Education Level	:
Sex	: _____	Checked by	:

24. Who decides on these targets?

25. Do you think that in general Posyandu meet these targets through their programs?

26. Why do you think so (that Posyandu have or have not met these targets)

RQ2 What is the Existing Approach to Verify or Validate the Credibility of PMRV Data?

SQa What are the characteristics of the people involved validating PMRV data?

I Quality of human resources involved in validation

27. Who validates the data you receive from Posyandu?

28. Have they received training on data validation process? Who held the training and when?

SQb What is the current procedure for data validation?

I Existence of data cleaning

29. Do you clean/check the Posyandu data you receive from Dinas Kesehatan Kabupaten before reporting them to Kementerian Kesehatan?

Yes No

30. If so, how?

Date:	: ____ / ____ / _____	Interviewer	:
Location	: _____	Interviewee/Position	:
Age	: ____ / _____	Education Level	:
Sex	: _____	Checked by	:

II Means of validation

31. Do you validate (*e.g.* compare with previous data or with external data) before making a report?

- Yes No

32. If so, how often?

- Monthly Quarterly Semester
 Yearly Others (mention)

33. How and what processes do you use to validate data?

III Data analysis

34. Do you analyze data before reporting it to Kementrian Kesehatan?

- Yes No

35. If so, what kind of analysis?

36. If so, what are the reasons why you conduct this analysis?

RQ3 How can we use perceptions from the various actors to inform about the robustness of current PMRV system?

SQa What is the perception of the various actors on the functionality of the existing system?

I Efficiency of the system

37. Which Posyandu program do you think has the most efficient data (*e.g.* achieving its goal to improve child and maternal health and enable further analysis)

Date:	: ____ / ____ / ____	Interviewer	:
Location	: _____	Interviewee/Position	:
Age	: _____ / _____	Education Level	:
Sex	: _____	Checked by	:

38. Why do you think this program is efficient?

39. Which Posyandu program do you think has the least efficient data (*e.g.* achieving its goal to improve child and maternal health and enable further analysis)?

40. Why do you think this program it is not efficient?

SQb What makes this system sustainable?

I Criteria to ensure sustainability of the existing PMRV system in the health sector.

41. What factors do you think, makes Posyandu sustainable? (minimum Human Resource number/quality, budget, facility needed, etc.)

SQc What aspect, according various actors could be improved or changed to make this system more feasible and/or sustainable?

I List of recommendation to improve Posyandu performances

42. What recommendations/suggestions do you have to improve your Posyandu performance?

Date: : ____ / ____ / _____

Location : _____

Age : _____ / _____
