Questionnaire for National Level (Ministry of Health)

RQ1 How can existing systems in Indonesia that include PMRV be relevant for PMRV in the context of REDD+?

SQa What organisations and people are involved in existing PMRV in Indonesia?

I Type of data collected

1. Do you receive data from these following Posyandu programs? (tick where applicable)

- Child and Maternal Health**
 - Prenatal mother*
 - Postpartum and breastfeeding mother*
 - Babies and under fives*
- Family planning**
- Immunization**
- Nutrition**
- Diarrhea prevention and countermeasures**

2. What data do you receive from these following Posyandu programs? (fill in where applicable)

Child and Maternal Health

Prenatal mother

-
-
-

Postpartum and breastfeeding mother

-
-
-

Babies and under fives

Date:	: ____ / ____ / ____	Interviewer	:
Location	: _____	Interviewee/Position	:
Age	: ____ / ____	Education Level	:
Sex	: _____	Checked by	:

-
-
-

Family planning

-
-
-

Immunizations

-
-
-

Nutrition

-
-
-

Dhiarrea prevention and countermeasures

-
-
-

3. What, according to your opinion is the aim of data collection?

II Organizations involved in PMRV

4. Do you know any other organization (including NGO, private midwife/nurse/doctor) that conduct **participative** child and maternal health service in Indonesia?

- Yes No

5. If so, who are they?

Date:	: ____ / ____ / ____	Interviewer	:
Location	: _____	Interviewee/Position	:
Age	: _____ / _____	Education Level	:
Sex	: _____	Checked by	:

6. If so, is it obligatory for them to report their activities to you?

Yes No

7. If so, what kind of data do they report to you?

III *Number of personnel at each level*

IV *Motivation of participation*

V Availability of budget for each level

8. Is there a budget in your office allocated for Posyandu activities?

Yes No

9. If so, from whom do you receive the budget and what is done with it?

VI Training of people involved in PMRV

10. Have you ever received training regarding Posyandu activities?

Yes No

11. If so, who organized this training?

12. What topics were discussed during this training?

Date:	: ____ / ____ / ____	Interviewer	:
Location	: _____	Interviewee/Position	:
Age	: ____ / ____	Education Level	:
Sex	: _____	Checked by	:

SQb What are the standards of data circulation within these systems?

I Standard of Procedure for PMRV.

13. Do you know of any standard of procedure (written regulation, training material, manual, guidelines) to regulate Posyandu programs and data collection?

Yes No

14. If so, what does this standard regulate?

II Data reporting

15. How often do you receive report on Posyandu data from Puskesmas/ Dinas Kesehatan Province?

Monthly Quarterly Semester
 Yearly Others (mention)

15.a. How do you receive the report? (email, sigizi, hardcopy, sms gateway, ect?)

15.b. Which one do you think is easiest in data management? Why?

15.c. Do you think that sigizi and sms gateways has been operating effectively? Why?

15.d. Is there any other department/ directorate general in Kemenkes with online data reporting like sigizi?

15.e. What do you think about Siknas?

16. How often do you make publication on Posyandu data?

Monthly Quarterly Semester
 Yearly Others (mention)

Date:	: ____ / ____ / _____	Interviewer	:
Location	: _____	Interviewee/Position	:
Age	: _____ / _____	Education Level	:
Sex	: _____	Checked by	:

17. How do you report or publish Posyandu data?

III Existence of feedback mechanism on each level

18. Do you give feedback to the lower level organizations (Dinas Kesehatan Province/Kabupaten, Puskesmas and Posyandu) on Posyandu activities?

Yes No

19. If so, how do you deliver your feedback to them?

20. Do you receive feedback from international or national institution on Posyandu activities?

Yes No

21. If so, how do they deliver their feedback to you?

SQc Are these systems sustainable?

I Period of system existence

II Success criteria of PMRV system

22. What are the Posyandu main targets to be achieved?

23. Who decides on these targets?

24. Do you think that in general Posyandu meet these targets through their programs?

25. Why do you think so (that Posyandu have or have not met their targets)?

Date:	:	___/___/_____	Interviewer	:	
Location	:	_____	Interviewee/Position	:	
Age	:	___/_____	Education Level	:	
Sex	:	_____	Checked by	:	

RQ2 What is the Existing Approach to Verify or Validate Credibility of MRV Data?

SQa What are the characteristics of the people involved validating PMRV data?

I Quality of human resources involved in validation

- 26. Who validates the data received from Posyandu?

- 27. Have they received training on data validation process? Who held the training and when?

SQb What is the current procedure for data validation?

I Existence of data cleaning

- 28. Do you clean/check the Posyandu data before making report or publication?
 - Yes
 - No

- 29. If so, how?

II Means of validation

- 30. Do you validate (*e.g.* compare with previous data or with external data) before making a report?
 - Yes
 - No

- 31. If so, how often do you validate data?
 - Monthly
 - Quarterly
 - Semester
 - Yearly
 - Others (mention)

- 32. How and what processes do you use to validate data?

Date:	: ____ / ____ / ____	Interviewer	:
Location	: _____	Interviewee/Position	:
Age	: ____ / ____	Education Level	:
Sex	: _____	Checked by	:

III Data analysis

33. Do you analyze data before making a report or publication?

Yes No

34. If so, what kind of analysis?

35. If so, what are the reasons you conduct this analysis?

RQ3 How can we use perceptions from the various actors to inform about the robustness of current MRV system?

SQa What is the perception of the various actors on the functionality of the existing system?

I Efficiency of the system

36. Which Posyandu program do you think has the most efficient data (*e.g.* achieving its goal to improve child and maternal health and enable further analysis)?

37. Why do you think the program is efficient?

38. Which Posyandu program do you think has the least efficient data (*e.g.* achieving its goal to improve child and maternal health and enable further analysis)?

39. Why do you think this program it is not efficient?

SQb What makes this system sustainable?

Date:	: ____ / ____ / ____	Interviewer	:
Location	: _____	Interviewee/Position	:
Age	: ____ / ____	Education Level	:
Sex	: _____	Checked by	:

I Criteria to ensure sustainability of the existing PMRV system in the health sector.

40. What factors do you think, makes Posyandu sustainable? (minimum Human Resource number/quality, budget, facility needed, etc.)

41. Do you think the presence of Posyandu important to maintain? If so, why?

SQc What aspect, according various actors could be improved or changed to make this system more feasible and/or sustainable?

I List of recommendation to improve Posyandu performances

42. What recommendations/suggestions do you have to improve Posyandu performance?

43. Do you have any recommendation/ suggestion to improve the information system data flow? (at all levels)

44. Do you know of any involvement of the Ministry of Internal affair in Posyandu?
