

PRO-Formal Research Tools – Questionnaire

Project: PRO-Formal  
Funder: EC  
Object: Research Tools – Questionnaire  
Target: PRO-Formal webpage

**Note: This is a general sample questionnaire. Questionnaires have been adapted and translated to reflect the specific conditions of each country**

Date: Interviewer:

Questionnaire for local administrators (mayors/elites/govt. delegates, etc.)

Department/Province/Village:

Interviewee(s):

When did artisanal logging operations begin in your area? Why?

What are the main species demanded by operators?

On average, how many chainsaws are now operating in the village? How many operators are in the village?

Are there chainsaw operators from abroad working in the village’s forests? If yes, how many on average over the past 3 months?

How many small-scale processing businesses are found in the council/province/department?

What are the benefits for villagers?

What taxes (formal or informal) are applied here on artisanal wood?

What are the main problems? What are the main measures taken or suggested?

Problems	Taken or proposed solution

How do you see the future of this industry in 5 years time?

Do you have any other comments?
