B) Village History

2. Do you know when your village was founded? If yes, when? (If the exact date is hard to remember, it can be related to other important events, like a volcanic explosion, flood, introduction to Bible, founding of airstrip, drought, Independence Day or when Suharto governed, etc.) [Ask key informant to create a timeline of important events in the village, beginning with the village's founding]

3. How was the village founded? (Was it created by the government? The result of another bigger village splitting apart? Some other reason?

- a. When did the villagers first arrive in this area?

- b. Do you know why they came here?

4. How did they (people mentioned in No. 3) make their livelihood back then? (Did they hunt? Keep animals? Plant? Farm? Fish? Gather wild products from the forest (like fruit, etc.)? Farming on dry land? Cultivate rice? Etc...)

5. Did they (people mentioned in No. 3) stay in one place permanently (location name) or did they move around from one place to another?

6. If they moved around (people mentioned in No. 3): How often would they move around? And for what reason? How far away from here would they move? (Consider how they will operationalize distance, same challenge as before with household survey) [use map from CIFOR]

7. What important events would you say have occurred in the village since its founding (natural events: earth quake, flood; political events: reformation, village splitting, special autonomy?)

C.) Change from Past to Present

8. How would you say peoples' livelihoods have changed since you were a kid?

9. And when would you say these changes occurred? [Refer to timeline; input events that related to life]

D.) Village Infrastructure

14. Can you describe any public infrastructure you currently have in your village? (Hospitals, schools, markets, water wells, airstrips, roads, etc.)

15. When did you receive these infrastructures? And from whom?

16. How has the infrastructure in your village changed since you were a child?

17. How is this infrastructure today managed and maintained? (And who is responsible, etc.?)

No.	Infrastructure [type and quantity] (#14)	Year built (#15)	Built by (#16)	How Infrastructure has changed (#17)	Who has responsibility to maintain infrastructure (#18)

E) Goals and Desires for Future:

18. How would you like to see your village develop in the future? What do you feel could help this development happen?

19. You previously mentioned activities and livelihoods (Q10) regarding companies [logging, mining, oil palm operations]. What changes could happen to your lives (hunting, fishing, collecting NTFP) in the future because of the activities of these companies?

20. What do you think your forest's condition will be in the future (increasing / decreasing related to the activities that you mentioned above)? Will there be any changes in forest management in the future? If yes, how? If not, why not?
