

# Sentinel Landscapes

Data Analysis Workshop

3<sup>rd</sup>-7<sup>th</sup> March 2014 CATIE Costa Rica

*Anja Gassner: Coordinator*

RESEARCH  
PROGRAM ON  
Forests, Trees and  
Agroforestry

*Livelihoods, Landscapes and Governance*

## The week ahead

- To bring everybody up to speed with respect to FTA and sentinel landscape evolution
- To foster cohesion
- To discuss about principles and approaches of comparative research
- To ensure that all teams are equipped and comfortable in collecting the baseline data
- To prepare for Phase 2 of FTA

# The program

- We would like to start at 8:30
- Flexible coffee and tea & lunch breaks, but need to be in line with cafeteria times
- Day divided thematically into morning and afternoon sessions
- Sessions are mix of presentations and group work
- Recap every morning

# What should be happening

- Do not assume ask questions!
- Getting to know the work of at least 3 people you have not met before!
- Finding your peers!
- Enjoy the wonderful campus and get to know CATIE
- Be a member of a network
- Constructive controversy
- Inclusiveness
- Creativity-thinking outside the box

# What should not happen

- Do not assume ask questions!
- Reading of emails during sessions
- No computers during sessions/no smart phones
- Skipping sessions /being late
- For presenters please be considered of time
- No speeches be to the point

CRP6: Sentinel Landscapes - Program of work for 2011 - 2014

Tuma La Dalia, Nicaragua.

One of the most innovative approaches proposed for the CGIAR Research Program on **Forests, Trees and Agroforestry** is to invest in the development of a set of 'sentinel landscapes'. This approach responds to a key recommendation from the 2009 Stripe Review of Social Sciences in the CGIAR commissioned by the CGIAR Science Council.

A sentinel landscape is a...
